Submission Format- 16:9 PowerPoint File

1. Create your files only in Microsoft PowerPoint and save them as .pptx files*
2. Create your slides using 16:9 formats.
3. If you are using any special or non-standard fonts, ensure that it is embedded into the pptx and please also send the font files (.ttf) to us along with the submission.
4. Should you have any video files to play, please embed it directly into the presentation. Ensure that the files are in Mp4 format.
5. To ensure a smooth flow, all presentations will be played from the AV team's laptop. You will be provided with a clicker to control the slides.
6. There is no dedicated Internet line within the stage area. Avoid playing online links as it will result in laggy onsite sharing.
7. Do let us know if you are agreeable to share your presentations. If yes, we shall provide visitors with a PDF copy to download.
8. **We ask all speakers to bring a copy of their latest slides on a USB stick as a backup.**

**Do kindly give us a heads-up should you wish to create in a separate file. We would need to do a pre-event check-in.*
