Submission – Onsite Materials

1. To ensure a smooth onsite programme flow, all presentations will be played from the AV team's laptop. You will be provided with a clicker to control the slides.
2. There is no dedicated Internet line within the stage area. Avoid playing online links as it will result in laggy onsite sharing.
3. Do let us know if you are agreeable to share your presentations. If yes, we shall provide visitors with a PDF copy to download.
4. **All speakers are highly encouraged to bring a copy of their latest slides in a USB stick as a backup.**
